Subject: Response Requested: WO# 1201015 Dimock Final Report Review

Kevin,

Would you check out the case narrative for WO# 1201015 and verify the sample receipt information (all samples intact, at temperature, no missing vials/bottles, etc.) and the general information about samples so that we can have a "second check" on these write-ups. Since we are generating three reports for these narratives we want to make sure we've captured the information correctly. I would like to send this report out by 10am. Would that work for you?

Cindy
